Cherry Lake Publishing has just announced an exciting new Common Core Bundle Pack that includes our all new teacher guide, **Navigating The Information Tsunami: Engaging Research Projects that Meet the Common Core**

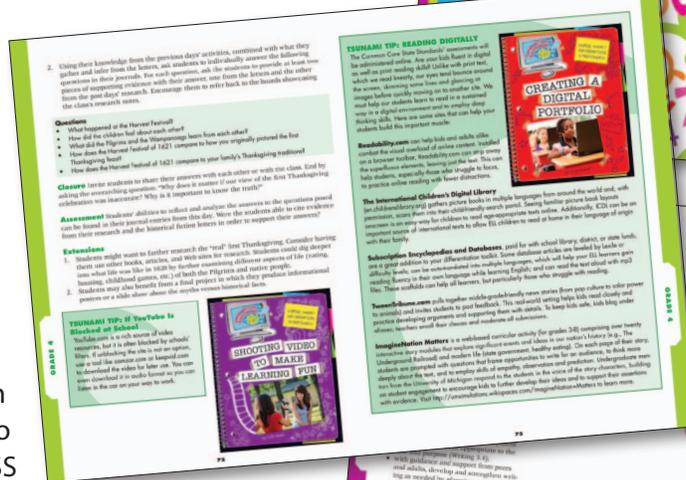

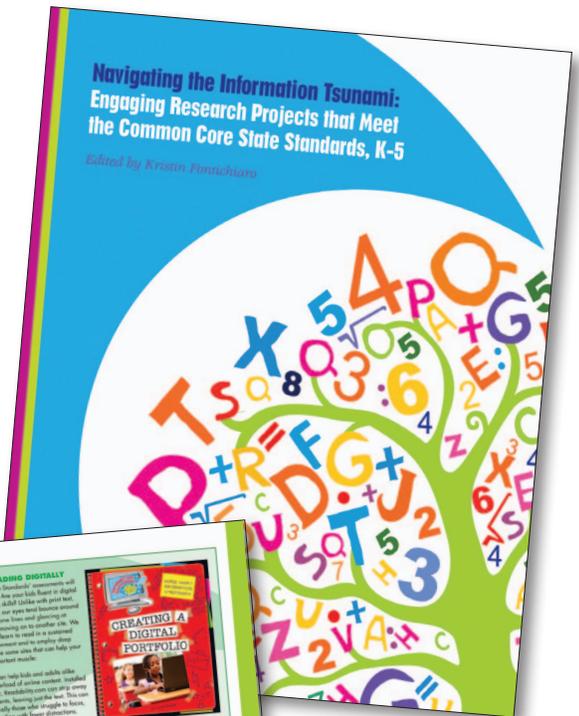

**State Standards, K-5**, and three of our most sought after Explorer Series sets: **Language Arts Explorer Junior: Writing Series**, **Information Explorer Junior**, and **Information Explorer** in hardcover and unlimited eBook access!

## NAVIGATING THE INFORMATION TSUNAMI

### Engaging Research Projects that Meet the Common Core State Standards, K-5

The implementation of the Common Core State Standards (CCSS) calls on educators to refresh and sharpen their skills in reading, writing, math...and research! Research in the Internet Age creates new challenges for search, comprehension, synthesis, and creation skills. In *Navigating the Information Tsunami: Engaging Research Projects that Meet the Common Core State Standards, K-5*, we've created our first book geared directly at teachers, administrators, and librarians.

Expert practitioners in research pedagogy share their best tips and lessons in nearly 20 projects that invite students to think deeply, weigh choices, make decisions, and articulate them in digital or print projects. With an eye toward the how and not merely the what of quality research for emerging readers and young scholars, our contributors provide detailed guidance on how teachers can harness students' natural curiosity to go beyond fact-gathering and exceed CCSS expectations. From launching the lesson to comprehension checkpoints to the final summative assessment, we're here to help.

Interest Level: 1-4  
 Reading Level: 2-3  
 Page count: 24 pages  
 Book Size: 8¼" x 8¼"

Bundle Pack includes all titles in hardcover and unlimited eBooks

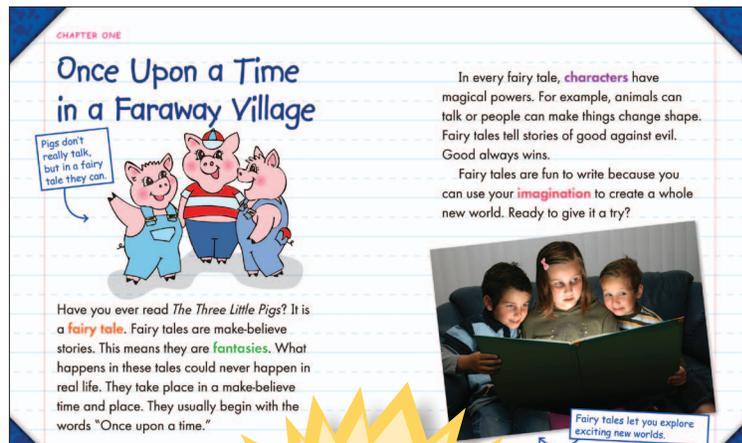

# Language Arts Explorer Junior: Writing Series

Writing is an important skill that kids use almost every day. Whether they're working on a school report or writing about their day, the *Language Arts Explorer Junior: Writing Series* has tips and tricks that will help them become writing experts.

### COMMON CORE STATE STANDARDS INITIATIVE

Research and media skills blended into the Standards as a whole

To be ready for college, workforce training, and life in a technological society, students need the ability to gather, comprehend, evaluate, synthesize, and report on information and ideas, to conduct original research in order to answer questions or solve problems, and to analyze and create a high volume and extensive range of print and nonprint texts in media forms old and new. The need to conduct research and to produce and consume media is embedded into every aspect of today's curriculum. In like fashion, research and media skills and understandings are embedded throughout the Standards rather than treated in a separate section.
