## NEWS & NOTEWORTHY HAPPENINGS

What's happening?

I hope this letter finds you well as you navigate a new school year and the rewarding journey of shaping young minds. I wanted to take a moment to express my heartfelt appreciation for the invaluable work you do every day.

One of the most pressing challenges educators face is helping students who struggle with reading. We recognize the profound impact that literacy has on a child's academic and personal development. That's why, for the fall season, we're addressing the need for more literacy resources with engaging titles and topics for beginning and struggling readers. From new titles in our popular Little Blossom Stories and In Bloom series to Code Breakers, a new decodable series geared toward 3rd-5th graders (featuring characters with dyslexia), to new decodable content readers in partnership with World Book—we're building up our decodable library with highly-curated content aimed to engage readers. With the elections ahead of us, we're also excited to share new series on politics and our civic duty to vote (DO it!) with series like We the People: State and Local Government at Work, Inside U.S. Elections, and On the Campaign Trail. This is just a small snippet of our exciting new selections. I hope you'll take time to browse our full catalog, visit our website, or follow us on social media.

I'd also like to remind you that we offer a wide range of supplementary materials, including eBooks, digital resources, and free downloadable activities to enhance the reading experience.

Together, we can inspire a love for learning and unlock the boundless potential within every child. I hope we can all feel proud of the work that we do.

Drop me a line.

# CHERRY BLOSSOM PRESS

**Cherry Blossom Press** introduces the building blocks of literacy, using effective decodable text, to foster a lifelong love of learning in early readers. While their world may presently be small, young children are inspired to think big and broad as they learn and grow. These books use familiar themes and topics supported by bright illustrations and colorful photography to ignite imaginations.

## Engaging Series for Early Readers

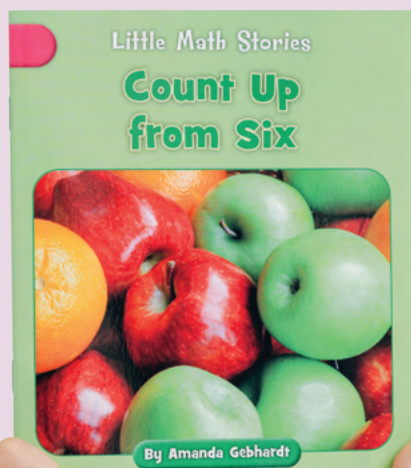

- + Written with systematic advancement of skills, books are based on decoding, sight recognition, language structures, and word repetition
- + Photos or illustrations follow text exactly to aid in reader inference and comprehension, providing a myriad of opportunities for visual analysis, making inferences, and building vocabulary
- + Decodable books are supplemental to any phonics curriculum. We offer books in various categories from our Cherry Blossom recommended reading sequence

“Cherry Blossom books are written for the earliest readers. The colorful illustrations and engaging stories support beginning reading skills using short vowel, single syllable words. The word list and full text at the end of the book assist with word study and timed readings.”

## **From Struggling to Strong—For Hi-Lo, Content Counts**

- + Books are written at grades 1-3 reading levels to engage struggling and reluctant readers
- + Titles are of particular interest to students in grades 4-8, while our new Express Hi-Lo titles are of interest for students grades 2-5
- + Captivating content includes battling warriors, survivalist hacks, urban legends, and historical heroes

“I am a big fan of your books. I’ve curated and created materials for more than a dozen years. I know how difficult it can be to write engaging texts with low readability. Struggling readers deserve quality texts that teach them about the world as they are improving their reading skills and working toward proficiency. Your books are well-written and fun. They also do not fall into the trap of using very short sentences to keep the Lexile low, which is the modus operandi for so many children’s book writers.”
